

EXCESS 13

XCS
Excess

THE WORLD HAS CHANGED, AND SO HAS SAILING.

The **Beneteau family shipyard**, founded in 1884 in Saint-Gilles-Croix-de-Vie in **Vendée** (France), has evolved with the times over decades.

For over 140 years, the men and women of the Beneteau Group have developed a passion for products, a sense of innovation and a constant commitment to customers and the environment.

The **Excess** brand was launched in 2019 to offer those who seek the comfort of a **catamaran** and combined with **sensations of sailing**.

SEEK SENSATIONS

At Excess, **breaking new ground** isn't revolutionary. It's simply what we do. Unique cruising catamarans with a **dynamic design and our disruptive attitude** set us apart.

This is how we offer **the thrill of sailing without sacrificing comfort**. Thereby, we are your gateway for exciting activities on, in, and around the sea.

Created for sailors looking for their next adventure.

Excess 13

With the Excess 13, the brand's personality asserts itself even further. Reinforced by the ideas from a new team of architects, she unveils a modern, dynamic, efficient interior design, in keeping with her conquering exterior lines.

The Excess 13 is a sleek, dependable, lively sailboat. Ready for ocean passage-making, she is equipped for every way of loving the sea. She is designed to create intense experiences and unique memories. Her spaces have been optimized to facilitate life on board, increase storage space, lighten the structure and enhance sensations under sail. This uncompromising balance reveals a dynamic boat with unique potential, designed for sailors avidly seeking pleasure and freedom and taking on challenges.

Available in 3 and 4 cabins versions.

MEET THE TRIBE

We are young at heart: we enjoy taking new ideas on board or even pioneer new concepts in sailing. And we don't want to do this alone! Excess is a community of owners, dealers, partners, enthusiasts, experts and all together we are the Excess tribe.

We collaborate, we exchange, we share, we question each other, we don't have all the answers but we build together the catamaran world that we dream of.

Welcome to the Excess tribe!

«The **Excess Campus**»
is an unmissable
event for all **sailing**
enthusiasts.

These **exclusive training** seminar
allow us to share our knowledge
and experience with our clients and
professionals of the nautical industry,
and to connect with the members of
the Excess tribe, who have a common
passion for the sea.

JOIN THE EXCESS LAB

The Excess Lab gives you the opportunity to join our Design Team, to interact with our specialists and naval architects. You will discover the features we are currently working-on and will be invited to join in the decision making process when selecting the options we will feature on our next Excess catamarans.

The Excess Lab also allows you to post your suggestions and to share the topics you would like our Team to investigate or develop.

"We are convinced that connecting you, sailors, with our professional team will be an enriching experience for all. It will bring us a lot, no doubt. We certainly hope that you will love and appreciate this sharing of ideas as well!"

Thibaut de Montvalon, Excess Director

Share your ideas.

MY EXCESS

« Join us on My Excess, an online rubric specifically designed for Excess catamaran owners and enthusiasts. As a member of My Excess, you will access exclusive information, receive invitations to special preview events and benefit from our partners' exclusive offers.

My Excess is not only a online platform; it is a dynamic community that celebrates a passion for sailing and adventure. Step on board and explore a universe where each detail has been designed to enhance your experience as a member of the Excess tribe.

Welcome to My Excess!

LESS IS MORE

In accordance with our DNA, at Excess we believe that the best way to be on the water, for us and our planet, is under sail! That's exactly why we want to design cruising catamarans with larger sail plans and reduced weight, capable of sailing under all conditions.

We look for simple and smart solutions in order to offer the necessary comfort and functions on board, while reducing our environmental impact.

On the Excess 14, our primary coring material is PET foam, which is made from 100% recycled bottles.

The pulse line pack allows to reduce the use of the engines and extends the possibility of sailing even with a light breeze. Eco-sourced sails complete this pack.

The Excess 11 is taking a big step forward: a hybrid version is now available for our iconic model.

Since 2023, all small composite pieces are made from a resin containing 38% bio-sourced materials.

We are progressively introducing natural fibers, such as hemp, in the built process of our boats. In 2023, Groupe Beneteau moulded over 30.000 GRP parts using bio-sourced resins with natural core materials.
